

PAINT BOOTH PHOENIX+

ALL THE AIR YOU WANT, WHEN YOU REALLY NEED IT

► PAINT BOOTH - Phoenix+

► Phoenix+ Why it is Special?

Paint Booth provides a controlled environment that ensures the painting process is efficient, safe, and results in a high-quality finish.

To increase quality and production while lowering operating costs, the ATS ELGI Paint Booth is designed to include a direct drive motor and a centrifugal backward curved blower with a larger inlet air flow and less motor power.

The ATS ELGI Recirculating System uses the heated air that exits the paint booth by recirculating it inside the paint booth and breathing in some fresh air, which lowers fuel costs and energy consumption.

► Features

- Downdraft Air Flow type
- Dust free painting chamber
- Better velocity for exhaust of paint fumes
- Puff insulated panels for longer life and better heat insulation
- High-capacity burner for quick drying of painted area
- Improves quality of paint job
- Reduces rework and refinish job thus increases the productivity
- Arrest paint fumes on base filters which controls pollution
- Reduces the safety hazard of operator by reducing the fumes in the chamber
- Higher fuel efficiency during the baking mode

► Benefits

**HIGHER
AIRFLOW**

**MAINTENANCE
FREE**

**LESSER
FOOTPRINT**

**REDUCES
POWER COST**

**LESS CONTAMINATED
INLET AIR**

**HIGH STRENGTH
PUF PANEL**
