

World leader in vehicle
de-pollution technology

SEDA ModuleTwo

P-528259

*Twin column compact system,
versatile and easy installation*

ELV Depollution System

The ModuleTwo is a two compact column system:

Column One: comprises of two powerful pumps for the removal of Petrol/Diesel, incorporating two quality control units for efficient fuel recovery. The SEDA Heavy Duty Tank Drilling machine, on a robust swingarm incorporating our newly developed fuel switch, all controlled with an air processing unit.

Column Two: incorporates a powerful pump for the removal of waste oil/brake fluid, consisting of waste oil funnel on robust swingarm, including waste oil lance and brake fluid hose set. The second powerful pump, removing coolant/washer fluid including coolant lance/spike also controlled with an air processing unit.

+ Your benefits:

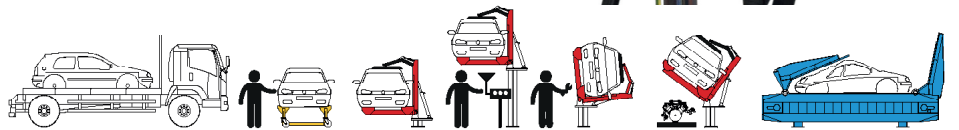

- Space saving
- Very efficient
- Clear fuel separation
- Inline filters
- Easy handling
- Tank drill with ATEX certification guarantees safety

*Newly developed fuel switch ▶
(Petrol / Diesel)*
